Yes, currently August 2 at 1:00 PM, but Wood county just informed me that they would like to change the date, but I have not heard back what day they would prefer.

Subject: RE: 2nd round of private well testing

Is there a date set for the call/meeting?

Subject: 2nd round of private well testing

After the educational session, Juneau and Wood County reached out to EPA to inform us that they planned to apply for another grant funding to do more extensive private well testing. EPA asked if Juneau and Wood county would like EPA's input as to where to sample and both counties thought that would be a great.

I reached out to Amy Mysz, EPA Land and Chemical Branch, who asked me if I had done pesticide analyses on my groundwater samples that I had collected with the GeoProbe, which I told her I did not. I asked if she thought it would be beneficial to do pesticide analyses along-side of the counties efforts for collection of samples to analyze for nitrates. This is what prompted the meeting that and discussing with the counties where to focus the sampling efforts.

I asked Nancy Eggleston, Wood county and she stated that it would be great to get additional parameters tested.

I have set up the meeting to include: Wisconsin DNR, Wisconsin DATCP, Counties (Wood and Juneau), Region 5 Rob Thompson, CRL lab, Amy Mysz, Land And Chemical, Jennifer Wilson, Drinking Water to discuss including additional samples and where we should focus the second round of sampling.

Please let me know if you have additional questions.

Sincerely,

Cheryl Burdett
